Public Schools.

At a meeting of the board of education of Silver City last week quite an amount of business was transacted. The question of the collection of poll tax came up and it was decided to appoint a collector with instructions to bring suit against every person liable for same who refused to pay the tax (\$1.00) as provided by law. H. H. Belts was decided upon as the gentleman to make the collection, and at once started upon his duties. It is a just tax, the schools are in need of it, and being small, should be paid when demanded.

The tailings from the old Mountain Key mill at Pinos Altos, belonging to the Pacific Gold Mining Co., which were dumped on ground belonging to Houston & Thomas, were sold to Alva Mason upon royalty. Mr. Mason had contracted them to the Ivanhoe smelter and when in the act of making delivery, about ten days ago, he was served with an injunction from further removal of same. Application was at once made to have the injunction dissolved and the matter came up before Judge Bantz in chambers last Saturday. The injunction was sustained.

Mason & Wood are taking some rich ore out of their Bear Creek mine at Pinos Altos. A sample lot at the Ivanhoe smelter gave set returns of \$18.00 per ton. Finding that the ore can be successfully treated a large force of men will be put into the mine in a few days. The Bear Creek mine is beyond a doubt one of the best properties in this section.

N. Bell was down from Pinos Altos last Saturday with another shipment of bullion. He says everything is running with full force, night and day in his camp.

The whole Mogollon district is opening up in fine shape. There is now an abundance of water for every mill at that section and all the idle properties have been started up full blast.

Hon. James N. Upton, Robert Thompson and Miss Kate Thompson, have gone out to their mines at White Signal. They expect to put a force of men to work in a few days for the purpose of developing the same.

At a meeting of the board of education of Silver City last week quite an amount of business was transacted.

The question of the collection of poll tax came up and it was decided to appoint a collector with instructions to bring suit against every person liable for same who refused to pay the tax (\$1.00) as provided by law. H. H. Belts was decided upon as the gentleman to make the collection, and at once started upon his duties. It is a just tax, the schools are in need of it, and being small, should be paid when demanded.

Jas. A. Lucas was appointed to take the census of all children of school age residing in the district.

The following teachers were elected for the coming school year, at salaries per month following their respective names: Miss M. R. Koehler, principal, \$125; Miss Jettie L. Gaddis, \$75; Miss Mary Agnes, \$60; Miss Belle Eckles, \$60; Miss Lizzie Black, \$60.

School will begin on Monday, Sept. 2nd.

Eight Chinamen and H. Hansberg, under escort of deputy U. S. marshals were brought up from Las Cruces on Sunday and lodged in the Grant County jail to await the action of the U. S. district court which convenes in this city on the 2nd of September. The offense with which the Chinamen are charged is being in the United States without complying with the registration laws. Hansberg, it will be remembered, is the defaulting postmaster of Hansberg, this County. He had a hearing before the U. S. commissioner of this district and was bound over to the district court. A short time later he escaped from the Grant County jail and was at large for several months.

Weekly Weather Crop Bulletin.

Week ending August 13.

The past week has been moderately cool with partly cloudy weather. Frequent showers have occurred and in a few cases accompanied by hail, which did some damage.

The frequency of rain has made it difficult to harvest crops of grain and alfalfa. Corn has grown rapidly and is looking very well. Fruit of all kinds is in splendid condition and the yield of apples will be large.

The stock ranges are in the best possible condition and in many places a good crop of graminis grass can be cut for hay. Stock is in good condition and in a few weeks will be fat.

The following extracts from a few of the reports received at this office will be found of interest.

Bernalillo—Heavy thunder and lightning with high wind and rain on the 6th and 8th, doing some damage to crops, causing them to "lodge down." Apples this season are very large in this locality some measuring twelve and one half inches in circumference.

Engle—This week has been cool and dry on the plains, but there have been thunder storms in the mountains nearly every day.

Gallinas Springs—The past week has been very favorable for corn and all other crops and grass on the ranges has not been so good since 1880.

Las Vegas—This week also has been damp, therefore crops are maturing rather slowly. There has been some damage to alfalfa from the excessive moisture. Irrigated crops are exceptionally fine.

Las Cruces—The weather has been somewhat cloudy and uniformly warm. We had light rains but no hard winds. Plants are not making so rapid growth, as they are now maturing. Grapes are ripening, some varieties give indication of being troubled somewhat with black rot.

Monero—Crops have made excellent progress during the past week. The potato crop will be considerably better than was expected. Oats and other small grains are being harvested.

Ocala—The week has been cool, cloudy and wet one. Wheat in the low level places is so tall that it is being lodged by the light winds which strike it. Corn is very backward, in fact, we have too much rain.

Ranches of Toco—And still it rains! Retarding haying and not doing much good to crops. We have had about enough for awhile. On the 5th we had a hail storm which lasted about two minutes, the hailstones being very large and it did some damage in places, although the area affected was not very large. If the rains would now cease, wheat and oats would be ready to harvest in 10 or 15 days.

Rincon—The week has been warm and some cloudy, with an occasional light shower. The temperature has been remarkably uniform, particularly at night. Plant growth of every kind is very good.

Santa Fe—The past week has been very favorable for the growth of all crops. With the exception of peaches the fruit crop will be the largest ever grown in the county. Corn in splendid condition. Frequent showers makes harvesting difficult.

Springer—Generally cloudy and warm with frequent showers. Heavy rain and hail on the 10th doing considerable damage to garden truck which had attained excellent headway under the refreshing showers.

Watrous—Hailstorms have been frequent, doing but little damage to standing crops. The temperature has been unusually low and crops are suffering from too much rain.

Digest of Land Decisions.

Furnished by W. D. Harlan, Land and Mining Attorney, Washington, D. C.

AGRICULTURAL.

Settlers who, without authority of law, enter upon lands that are held in reservation under departmental instructions that expressly forbid all settlement from entering thereon, until lawful permission is given, acquire no equities thereby.

COAL.

A private entry of coal land may not be allowed to embrace one tract, taken in the capacity of an assignee, and another under the individual right of the purchaser.

MINEWALL.

A placer location made prior to the act of August 4, 1892, of land chiefly valuable for a deposit of glass sand and building stone is not a legal appropriation of the land, and the subsequent intervening homestead entry of another will defeat the placer application.

Both a water right and mill site claim may be located on the same tract of land.

SIGNAL TRIUMPH WON.

By Dr. Price's Cream Baking Powder—Two signal triumphs have been achieved by Dr. Price's Cream Baking Powder. First it received Highest Award and Diploma at the World's Columbian Exposition of 1893. Next it secured Highest Award and Gold Medal at the California Midwinter Fair of 1894. At both Fairs it surpassed all competitors in every respect. The award, in each instance, was for strongest leavening power, perfect purity and general excellence. It was sustained by the unanimous vote of the judges.

The victory at Chicago establishes the supremacy of Dr. Price's "The Cream Baking Powder in the World." The triumph at San Francisco confirms and emphasizes it.
